The amendment was negative without a division. Enoch Edwards moved an amendment for the inclusion of the miners' schedule.

It was semi-officially announced that the Federation of Mine Owners had quietly served notice on the Premier that if the fixing of the minimum wage law was not left to the local committees.

Reports from Scotland to-day were that some of the men were returning to work. If the great body of men should accept the minimum wage bill as it will be passed by the House and return to work the mines, however, could not be thoroughly in working order before Easter.

PRAGUE, Bohemia, March 22. The feeling in favor of a strike among the miners of Bohemia, which has been smoldering for some time, is spreading considerably, especially in the mining region of Bruix.

The strikers in the mining town of Maltheuern and Wiesa have become so turbulent that the military police have been called out and several conflicts have occurred.

RUSSIA SEES SCHEME OF U. S. IN CHINA LOAN

Says She'll Withdraw From European Politics to Guard Interests in the Far East.

HER POSITION THREATENED

So She Threatens England and France—Tang Optimistic—Sufrage Riot at Nankin.

Special Cable Despatches to The Sun. LONDON, March 23.—A St. Petersburg despatch to the Post referring to the proposed international loan of \$50,000,000 to China, intimates that Russia was greatly disatisfied on learning the amount and conditions of the accommodation. Russia believed when she agreed to participate in the undertaking that only a small temporary loan was intended.

The correspondent says that, as the United States initiates the six power loan movement, Russia is inclined to interpret it as another and more dangerous form of the American schemes in China of a few years ago which threatened her position in the Far East. The correspondent says that the present scheme is carried out, Russia must withdraw entirely from European affairs and devote her whole strength to safeguarding her far Eastern possessions.

Russia, the despatch says, will probably protest to France and Great Britain against the schemes which she believes underlie America's proposal for an enormous loan to China, asking them whether it will suit their policy to see Russia drop out of European politics.

The Pekin correspondent of the Daily Telegraph says the most important feature in reference to the proposed loans is the struggle to obtain control of the silver market in China, inasmuch as virtual free coinage of that metal, which is inevitable, means an endless demand for silver. Independent observers believe that the success of the Anglo-Belgian loan is a healthy symptom since the methods of the four power group were becoming bureaucratic and inflexible.

It is believed in Pekin, according to the correspondent, that the biggest of India's silver buyers are behind the new development and that silver will reach the highest level in years during the coming summer.

In reference to the foregoing it is understood in London that the Sassoons, the wealthy Indian and London bankers, are practically identical with the Anglo-Belgian syndicate which has taken up the new Chinese loan. The Sassoons are allied by marriage with the Rothschilds.

PEKIN, March 22.—It is reported that the Paris Bourse has been closed to the new Chinese loan which has just been negotiated by an Anglo-Belgian syndicate of bankers not connected with the "Four Power Group."

The Foreign Office says that Gen. Sheng Yun, the imperialist governor of Shen-si province, will be pacified provided the Government sends him 2,000,000 taels, about \$1,320,000, to pay his troops.

William Purdon, an English scientist, has just returned from the provinces of Kan-su and Shen-si. He says the Mohammedans are superbly armed and well disciplined and that they are in control of Kan-su. They demand that the republic grant them autonomy. Though cooperating with Gen. Sheng Yun, who controls western Shen-si, they do not contemplate a war of conquest, desiring only self-government, which they had under the Manchus.

Eastern Shen-si is controlled by the Kolaohui, a secret society which terrorizes the populace and officials by Black Hand methods.

SHANGHAI, March 22.—The Premier of China, Tang Shao Yi, arrived here to-day from Pekin on his way to Nankin, where he is to confer with the leaders of the republic on the future of the new government. He was met at the water-front by a detachment of Chinese troops and French and British forces from the concessions.

Tang may leave here for Nankin to-morrow. He will submit the draft of the new Cabinet to the republican National Assembly.

TWO BATTLESHIPS A YEAR FOR GERMANY

New Naval Programme Amounts to a Concession to England's Attitude.

NEW ARMY CORPS, HOWEVER

Forces on French and Russian Frontiers to Be Strengthened—Emperor Off to Corfu.

Special Cable Despatch to The Sun. BERLIN, March 22.—The Imperial Chancellor, Dr. von Bethmann-Hollweg, laid his naval and military plans before the Federal Council at a meeting of that body to-day. The plans provide for an expenditure of \$84,500,000 during the next three years in increasing the army by 20,000 men, a peace footing. Large naval expansion is also indicated.

The details of the measures, according to the Norddeutsche Allgemeine Zeitung, provide for two additional army corps in the Prussian army and for minor increases in the Bavarian and Saxon armies. The naval bill provides for an extra battle squadron, for which three additional battleships and two cruisers are to be constructed before 1920. The estimated additional annual cost is to be \$24,250,000 in 1912, \$31,750,000 in 1913 and \$28,500,000 yearly after that.

The army reforms include the creation of two field artillery regiments, one Saxon cavalry regiment, one Prussian infantry regiment and fourteen additional third battalions, to bring up the strength of all regiments from two to three battalions and the introduction of machine gun companies in every existing infantry regiment. The pay of the men is also to be increased. New corps are to be stationed on the French and Russian frontiers.

The naval bill increases the personnel of the navy by seventy-five officers and 1,600 men annually until 1920 over and above the increases provided for in the existing naval law. This is necessitated by the commissioning of the extra three battleships, three large and three small cruisers and the larger crews required to man modern battleships. The bill provides for an increase in the number of submarines and for several dirigible balloons.

The new naval proposals amount to a concession to England. They provide for the laying down of only two new dreadnoughts a year for the next five years against the three which had been previously planned. No new taxation seems to be contemplated.

The much discussed vacation trip of the Emperor was started to-day when, accompanied by his son Prince August Wilhelm and his daughter, the Princess Victoria Louise, he boarded a train for Vienna. In the Austrian capital he will meet the Emperor Francis Joseph. He will then go to Venice, where he will be entertained as the guest of the Italian King. From there he will proceed to the island of Corfu, where he has a summer palace.

Strict precautions have been taken in Vienna and Venice to protect the Emperor from any untoward event.

President of Paraguay and Ministers Take Refuge Under Foreign Flags.

Special Cable Despatches to The Sun. BUENOS AIRES, March 22.—The rebels have captured Asuncion, the capital of Paraguay.

The President and members of the Cabinet have taken refuge at the foreign legations on board Brazilian and Argentine warships.

BUENOS AIRES, March 22.—A despatch from Asuncion says a state of anarchy again prevails in Paraguay and the revolutionists are besieging the capital. There was an indecisive battle on Wednesday in which many were killed and wounded. Fighting is still in progress, according to telegrams received here to-day from Asuncion.

Many changes have taken place in the positions of the two forces, entrenched positions having been taken and retaken several times. Some of the battalions engaged have been decimated, according to the report.

Men's Silk Knitted Scarfs

values 1.50 & 2.00 to-day 85c

Q Samples. What is a sample? A sample is a piece of merchandise on its best behavior. It is the great silent drummer for business and its ways are full of promise. Such are these in this sale. They are sample knitted all-silk scarfs of the 1.50 and 2.00 variety, and if they differ at all from the innumerable duplicates already sold into captivity it is perhaps that they were knitted more leisurely somewhat before the rush. At any rate we gladly bought all the maker had and regretted that there were not more, for we share with you the universal fondness for a good thing.

Q Accordion and crochet weaves, in plain, matter-of-fact colors and pleasing combinations. There are four-in-hands and bat wings, and, just between you and us, these are the biggest values in silk knitted neckwear that we have seen in a long time. Just come in and cast your weather eye over the situation anyway. Then you will enthuse as much as we have.

Men's Crossbar Handkerchiefs

value 1.50 for 6 to-day 6 for 95c

Q Six different styles of crossbar handkerchiefs, with the initial your father gave you hand-embroidered in the corner by some slip of a girl who probably wondered who you are. Perfectly made and finished and all that sort of thing and just bumper value.

\$5 and \$6 Silk Shirts at 3.85

"There are only a few of us left."

Q We really cannot say how long the balance of these silk shirts will remain with us, for the first day's response to this sale practically wiped out the supply. Never a silk shirt sale created such a furore at this time. The number of plural purchases was a marvel to behold. And no wonder, for the values are simply phenomenal. What we want to know is, are you interested in the few that are left? If so say the word and say it now.

VENIZOS LIKELY TO WIN.

But Bitter Election Campaign Is Waged Against Greek Premier.

Special Cable Despatch to The Sun. ATHENS, March 22.—The election campaign in Greece is very virulent and the Venizelists are waging a bitter contest with the factions opposing the Premier.

The anti-Venizelists are raking up every conceivable accusation against the Premier and are even making political capital out of the Archbishop of Crete's anathema against M. Venizelos.

During the conflict King George and M. Venizelos have addressed a crowd of 40,000 Venizelist enthusiasts from the balcony of the Grand Hotel. It is most probable that M. Venizelos will win out in the election.
